

Environmental Management Policy

BOA is committed to ensuring that its activities shall have minimal impact upon the environment.

BOA shall:

- The Environment Management System (EMS) intends to:
- Implement and operate in compliance with the ISO 14001:2015 standard, MARPOL and Flag-Port State regulations;
- Ensure environmental management is given equal consideration throughout all operational planning and undertaking;
- Consider all environmental incidents to be preventable and make all efforts to meet the target of zero spill to the external environment;
- Apply applicable laws and regulations and where deficient apply company and industry best practice;
- Reduce and restrict the production of waste products known to be detrimental to the environment;
- Minimize our impact on the environment through pollution prevention, efficient use of natural resources and the reduction and recycling of waste;
- Set and regularly review environmental objectives and targets with the aim of continuous improvement;
- Monitor our environmental performance and address deficiencies where identified;
- Consider environmental improvement areas as high priorities during projects and new-buildings;
- Openly communicate environmental performance with industry organisations and the wider community.
- Assess and control the aspects and impacts of our operations upon the environment. Including and not limited to;
 - Sea transportation on barges on a worldwide basis.
 - Load-out and launching of heavy objects.
 - Rig moves and emergency response operations in the North Sea
 - Provision of harbor towage and terminal operations in the ports between Trondheim and Kirkenes
 - Coastal towages along the Norwegian coast and ocean towages in Baltic and North Atlantic Ocean.
 - Salvage operations along the Norwegian coast

Application

This policy applies to the entire BOA group, BOA vessels and barges and all operations planned and carried out by BOA.

Responsibility

The CEO of BOA is accountable to the Board of Directors for ensuring that this policy is implemented.

Management at all organisational levels within BOA is responsible for ensuring the achievement of the Policy through the provision of the necessary resources.

All BOA employees and subcontractors have an individual responsibility to ensure that they and their colleagues co-operate with BOA to achieve its quality objectives.
